Product Catalog 2016

IP65/IP68 Industrial Silicone Rubber

Keyboard

TABLE OF CONTENTS

IP65/IP68 INDUSTRIAL SILICONE RUBBER KEYBOARD

MAIN FEATURE

- keyboard with NVIS-compliant red adjustable backlighting optional, while NVIS backlighting makes this keyboard ideal for aviation or vehicle applications where night vision goggles are necessary.
- Keyboard provides full-size versatility in a rugged, compact design, rugged construction for reliable functionality
- The keyboard lacks the crevices found between the keys of a regular keyboard, which is protected against dust, dirt, grease and corrosive liquids to NEMA 4X, which means it can withstand directed hose water, disinfectants, environmental contaminants and heavy industrial use.
- Special dura-coating for excellent mechanical and chemical resistance
- Clean key

  -Prevents data from being sent while the keyboard is wiped down, allowing user to clean at any interval with minimal downtime

  -User is notified of 'lock down mode' by brightly lit CLEAN KEY
- With firm tactile key feel, 1.5mm key travel.
- Integrated numeric keypad.
- Optical IP68 mouse available
- Ease of customizing with multiple languages, to accommodate foreign or custom variants.
- PS/2, USB connection cables that plug directly into computer like keyboard operations.

MECHANICAL DATA

- Key top style: Protuberant rectangular keys with tactile feeling.
- Touchpad cover: Composite
- More than Lifetime 10 million strokes
- Mutual Capacitance sensing
- X/Y position sensing resolution: 40 counts/mm
- X/Y position reporting: Relative
- Output (self-detectable depending on cable): PS2 or USB
- Tracking speed: Maximum 1,016 m/sec
- Power supply voltage: 5 VDC ±0.25V
- Current rating (active mode): 17 mA
- Switch life: more than 10 million of operations.
- Cable Length: 2.5m

ELECTRICAL DATA

- Supply Voltage: +5V DC +/-5%
- Current Rating:

  PS2: keyboard with 210mA@5V (from keyboard port)

  USB: 220mA@5V (from CPU port)
- EMC Standard: It is compliance with the council EMC directive 89/336/EEC EN55022: 1988+A1:2000+A2:2003 EN55024: 1988+A1: 2001+A2:2003
- Emission: EN 50081-1
- Immunity: EN 50082-1
- Lifespan> 3 years
- Switch Contact Material: Carbon-on-Gold key switch technology with gold PCB.
- Interface: PS2, USB available.
- **OS: Windows95/98/NT/ME/2000/2003/XP/Vista/WIN7, Linux, Unix, Mac OSX**

ENVIRONMENTAL ADAPTABILITY

- Operating temperature:-30°C to +65°C
- Storage temperature: :-40°C to +65°C
- Humidity: 100%
- Atmospheric pressure: 60-106Kpa
- Shock: 3x11 ms pulses of 50g on each of 3 axes
- Vibration**:** POWER SPECTRAL DENSITY: 0.04g/Hz, FREQUENCY RANGE: 20Hz - 2kHz, DURATION OF TEST PER AXIS: 3 hours
- Flammability
  PRINTED CIRCUIT BOARD: 94 VO
  SILICONE OVERLAY: 94 HB
  INTERFACE CABLE: 94 V

RELIABILITY

- **RoHS Compliant, CE and FCC,ESD**
- **Protection Level: IP68, NEMA 6P**
- Key Lifespan >10 million actuations
- MTBF >50000H
- MTTR <30min

PRI-KYB-M222-FNK-OEM-ML

DESCRIPTION: 81 keys IP65 dynamic sealed & ruggedized silicone rubber industrial keyboard with industrial PCB included, 10 function keys on top line for easy operation, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & anti-microbial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + Clean combination key for easy cleaning via lock/disable whole keyboard without needing to take away the keyboard from PC, panel mounted version, adjustable backlight optional, Military Level.

- **Number of Keys: 81**
- **G.W.:** 0.80 kgs
- **DIMENSIONS :** 222.0mm x 100mm x 9.1mm (L x W x H)

PRI-KYB-M270-FNK-IL-MDT

DESCRIPTION: 83 keys IP68 dynamic sealed & ruggedized industrial silicone rubber Industrial keyboard, 12 function keys and industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, Clean key for easy cleaning via lock/disable whole keyboard without needing to take keyboard from PC, stand alone desk top version with sealed aluminum metal housing with sand blasting & oxygenation surface treatment, adjustable industrial backlight optional. Military level optional.

- **Number of Keys: 83**
- Clean key

-Prevents data from being sent while the keyboard is wiped down, allowing user to clean at any interval with minimal downtime

-User is notified of 'lock down mode' by brightly lit CLEAN KEY

- **G.W.:** 1.20 kgs

DESCRIPTION: 83 keys IP65 dynamic sealed & ruggedized silicone rubber industrial keyboard with industrial PCB included, 12 function keys on top line for easy operation, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & anti-microbial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + Clean combination key for easy cleaning via lock/disable whole keyboard without needing to take away the keyboard from PC,panel mounted version, adjustable industrial backlight included, Industrial Level.

DIMENSIONS : 270.0mm x 113.0mm(L x W)

PRI-KYB-M270-FNK-OEM-BLT-ML

DESCRIPTION: 83 keys IP65 dynamic sealed & ruggedized silicone rubber military keyboard with military electronics PCB included, 12 function keys on top line for easy operation, military PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & anti-microbial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + Clean combination key for easy cleaning via lock/disable whole keyboard without needing to take away the keyboard from PC, panel mounted version, adjustable backlight included, Military Level.
DIMENSIONS : 270.0mm x 113.0mm(L x W)
PRI-KYB-M270-HP-BLT-IL

DESCRIPTION: 42 keys IP65 dynamic sealed & ruggedized silicone rubber industrial keyboard with an integrated all sealed Hula pointing device, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & anti-microbial keyboard surface withstand to most chemicals and liquids under harsh environment, panel mounted   version, adjustable backlight included, Industrial level.

DIMENSIONS : 270.0mm x 113.0mm(L x W)

硅胶M270-DMS-FN的硅胶图
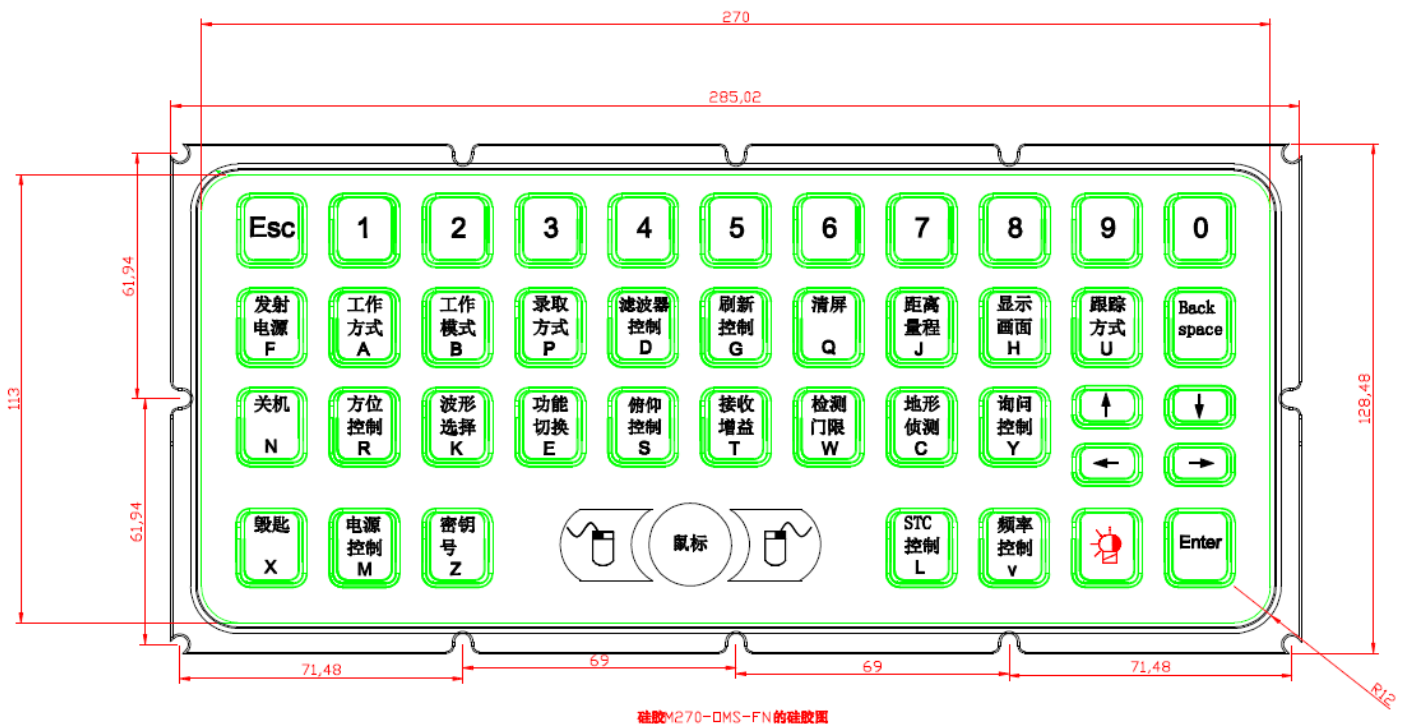

PRI-KYB-M275-OTBM-FNK-IL-MDT

DESCRIPTION: 92 keys IP68 dynamic sealed & ruggedized silicone rubber industrial keyboard with full keyboard functionalities with IP68 dynamic washable 16.0mm optical trackball module with 800 DPI for fast and accurate cursor position, 12 FN keys (F1, F2...F11, F12) are on the top line for easy operation, with industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning, adjustable industrial backlight optional. Mountable desk top version with robust poly carbonate case, military level. Industrial level optional.

- **Number of Keys: 92**
- Clean key

-Prevents data from being sent while the keyboard is wiped down, allowing user to clean at any interval with minimal downtime

-User is notified of 'lock down mode' by brightly lit CLEAN KEY

PRI-KYB-M275RTP-FNK-BLT-IL-OEM

DESCRIPTION: 89 keys IP65 dynamic sealed and ruggedized silicone rubber Hygienic industrial keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad for fast and accurate cursor position, 12 FN keys (F1, F2...F11, F12) are on top line for easy operation, with industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + CLEAN key to lock/disable the keyboard for easy cleaning without needing to take away the keyboard from PC, industrial PCB sealed and ruggedized with top rubber for top panel mounting, industrial level with adjustable backlight included.

With optional stainless steel back plate sealed and ruggedized with top industrial silicone cover & industrial PCB for ruggedized structure and easy mounting and sealing, stainless steel housing protects the electronics controller.

DIMENSIONS: 275.00mm x 168.00mm (L x W)

APPLICATIONS:

This ruggedized and compact design keyboard can be good for working in low-light areas, it is with LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for below wide applications:

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses

PRI-KYB-M275RTP-FNK-ML-MDT

DESCRIPTION: 89 keys IP68 dynamic sealed & ruggedized silicone rubber keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad, 12 FN keys are on the top line for easy operation, with gold finnish PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning via lock/disable the entire keyboard without needing to take the keyboard from PC, wired keyboard. Mountable desk top version with robust polycarbonate case, military level. Adjustable backlight optional, Industrial level optional.

DIMENSIONS : 304.40mm x 195.80mm x (22.34mm-47.33mm) (L x W x H)

APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. The tactile keys allows for easy data entry, while its robust polycarbonate case protects it against any hazardous environment.

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipment, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses

PRI-KYB-M275RTP-FNK-WF-IL-MDT

DESCRIPTION: IP68 dynamic sealed & ruggedized industrial silicone rubber industrial keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad, blue tooth wireless industrial keyboards, with industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, Clean key for easy cleaning, Blue-tooth wireless versions, mountable desk top version with robust poly carbonate case.

DIMENSIONS : 304.40mm x 195.8mm x (22.30mm-47.30mm) (L x W x H)
APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. Its large numeric pad allows for easy data entry, while its robust polycarbonate case protects it against any hazardous environment.

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses

PRI-KYB-M275RTP-FNK-BLT-ML-OEM

DESCRIPTION: 89 keys IP65 dynamic sealed and ruggedized silicone rubber Hygienic keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad for fast and accurate cursor position, 12 FN keys (F1, F2...F11, F12) are on top line for easy operation, with gold PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + CLEAN key to lock/disable the keyboard for easy cleaning without needing to take away the keyboard from PC, gold PCB sealed and ruggedized with top rubber for top panel mounting, military level with adjustable backlight included.

With optional stainless steel back plate sealed and ruggedized with top silicone cover & gold PCB for ruggedized structure and easy mounting and sealing, stainless steel housing protects the electronics controller.

DIMENSIONS: 275.00mm x 168.00mm (L x W)

APPLICATIONS:

This ruggedized and compact design keyboard can be good for working in low-light areas, it is with LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for below wide applications:

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

PRI-KYB-M275RTP-FNK-MDT-AL-BLT-ML

DESCRIPTION: 89 keys IP68 dynamic sealed and ruggedized silicone rubber keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad for fast and accurate cursor position, 12 FN keys (F1, F2...F11,F12) are on the top line for easy operations, with gold finish PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning via locking /disable the entire keyboard without needing to take the keyboard from PC, movable stand alone desk top version with IP68 dynamic washable sealed aluminum metal housing with sand blasting & oxygenation surface treatment, adjustable backlight included, military level. Industrial level optional.

DIMENSIONS: 295.40mm x 198.60mm x 18.00 mm (L x W x H)

APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is with LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. Its tactile keys allows for easy data entry, while its robust aluminum housing protects it against any hazardous environment.

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses

PRI-KYB-M275RTP-FNK-IL-MDT

DESCRIPTION: 89 keys IP68 dynamic sealed & ruggedized silicone rubber industrial keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad, 12 FN keys are on the top line for easy operation, with industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning via lock/disable the entire keyboard without needing to take the keyboard from PC, adjustable industrial backlight optional, wired keyboard. Mountable desk top version with robust poly carbonate case, industrial level. Adjustable backlight optional, military level optional.

DIMENSIONS : 304.40mm x 195.80mm x (22.34mm-47.33mm) (L x W x H)

APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. The tactile keys allows for easy data entry, while its robust poly carbonate case protects it against any hazardous environment.

DESCRIPTION: 62 keys IP65 dynamic sealed & ruggedized silicone rubber military keyboard with industrial PCB included, NO 12 function keys and numeric keypad included, military PCB electronics with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & anti-microbial keyboard surface withstand to most chemicals and liquids under harsh environment, with 2 backlight side function keypad optional.

DIMENSIONS: 276mm x 65mm (L x W)
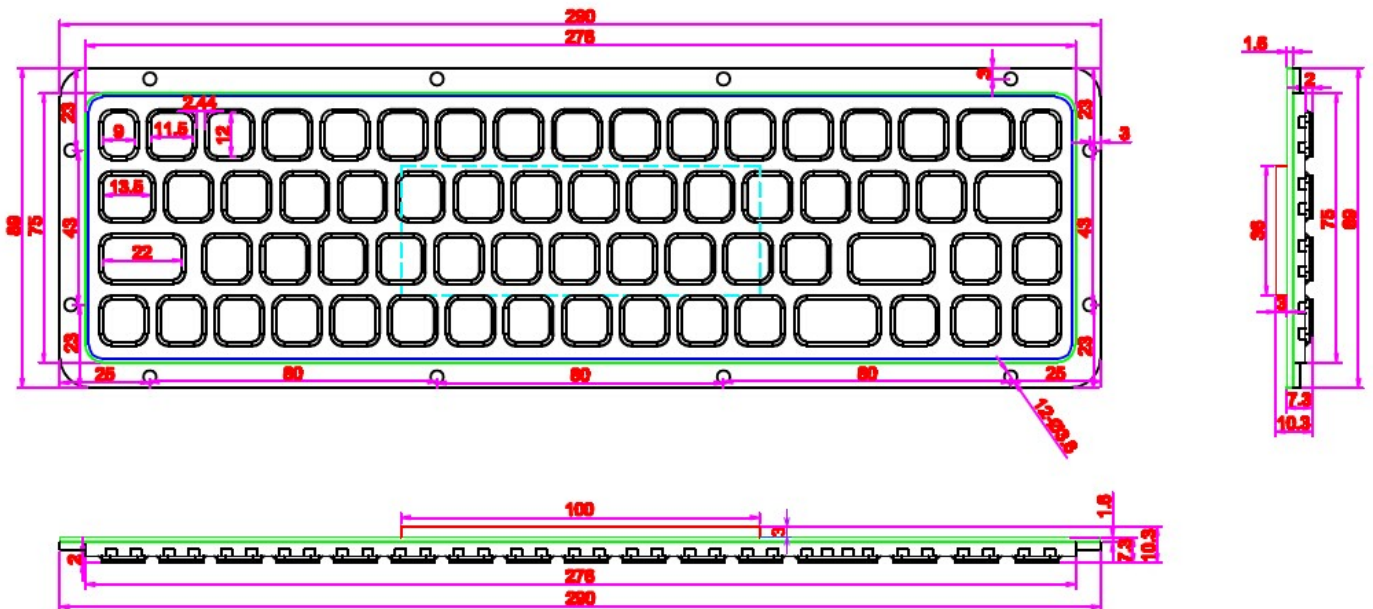

PRI-KYB-M276RTP-FNK-BLT-ML-OEM

DESCRIPTION: 89 keys IP65 dynamic sealed and ruggedized industrial silicone rubber Hygienic keyboard with full keyboard functionalities with sealed and ruggedized tough touchpad for fast and accurate cursor position, with industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + Clean key to lock/disable the keyboard for easy cleaning without needing to take the keyboard from PC, top panel mounted with optional stainless steel back plate sealed with top ruggedized industrial silicone cover & industrial PCB for ruggedized structure and easy mounting and sealing, stainless steel housing protects the electronics controller.   Adjustable industrial backlight included, military level.

Dimensions: 274.60mm x 146.50mm (L x W)

APPLICATIONS:

This ruggedized and compact design keyboard can be good for working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for below wide applications:

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipment, operation rooms, dialysis centers etc;
MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc
MILITARY: Army, Navy, Air force
INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses
PRI-KYB-M276RTP-FNK-BLT-ML-FDT

DESCRIPTION: 89 keys IP68 dynamic water proof sealed & ruggedized silicone rubber military keyboard with full keyboard functionalities with sealed & ruggedized tough touchpad for fast and accurate cursor position, 12 FN keys (F1, F2...F11,F12) are on the top line for easy operation, with military PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, FN + CLEAN key for easy cleaning via lock/disable the entire keyboard without needing to take the keyboard from PC, adjustable backlight included,   VESA mountable super flat desk top version with robust ABS polycarbonate case, military level, industrial level optional.

Dimensions: 289.66mm x 160 x 22.36mm (L x W)

APPLICATIONS:

This ruggedized and compact design keyboard can be good for working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for below wide applications:

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipment, operation rooms, dialysis centers etc;
MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc
MILITARY: Army, Navy, Air force
INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses
PRI-KYB-M300NKP-FNK-IL

DESCRIPTION: 90 keys IP65 dynamic sealed & ruggedized industrial silicone rubber keyboard with integrated function keys (F1, F2...F11,F12) and   industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, Clean key for easy cleaning   via lock/disable the keyboard without needing to take away the keyboard from PC,   panel mounted with aluminum back plate with mounting holes and sealed with top ruggedized industrial silicone cover & Industrial carbon-on-gold PCB.

 DIMENSIONS : 331.0mm x 123.0mm(L x W)
PRI-KYB-M368-OTBM-FNK-MDT

DESCRIPTION: 86 keys IP68 dynamic sealed & ruggedized silicone rubber industrial keyboard with IP68 dynamic rated 16.0mm washable optical trackball module with 800 DPI resolutions for fast and accurate cursor position, 3 mouse buttons designed for right & left clicking and scrolling up and down with ball rolling, 12 function keys on top line for easy operation, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning via locking/disable the entire keyboard without needing to take the keyboard from PCB, movable stand alone desk top version with IP68 dynamic washable sealed aluminum metal housing with sand blasting & oxygenation surface treatment, adjustable industrial backlight optional. PRI-KYB-M379RTP-NKP-FNK-BLT-IL-OEM

DESCRIPTION: 120 keys IP65 dynamic rated & ruggedized industrial silicone rubber Hygienic keyboard with full keyboard functionalities, integrated numeric keypad and 24 FN keys (F1, F2...F11, F12...F23, F24) on upper line, sealed & ruggedized tough touchpad for fast and accurate input, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, Clean key for easy cleaning via lock/disable the keyboard without needing to take away the keyboard from PC, top panel mounted solutions, adjustable backlight Included, Industrial Level.
DIMENSIONS: 379.0mm x 169.0mm(L x W)

APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is with LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. Its large numeric pad allows for easy data entry, while its robust polycarbonate case protects it against any hazardous environment.

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses
OTHER INDUSTRIES

PRI-KYB-M399RTP-NKP-FNK-BLT

DESCRIPTION: 108 keys IP66 dynamic sealed & ruggedized silicone rubber industrial Hygienic keyboard with full keyboard functionalities with FN (F1, F2...F11, F12) on upper line, integrated numeric keypad, sealed & ruggedized tough touchpad for fast and accurate cursor position, industrial PCB with carbon-on-gold key switch technology with long stroke (1.50mm) with extremely good tactile feeling for fast and accurate data input without any noise, with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, CLEAN key for easy cleaning keyboard via lock/disable the keyboard without needing to take away the keyboard from PC, top panel mounted with 3.0mm oxygenation surface treatment alumnium back plate sealed with top ruggedized industrial silicone cover & Industrial carbon-on-gold PCB, adjustable industrial backlight included, military lelve optional.

DIMENSIONS: 399.0mm x 150.0mm (L x W)

APPLICATIONS:

This keyboard provides full-size versatility in a rugged, compact design with the added convenience of an integrated touchpad. For working in low-light areas, it is with LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. Its large numeric pad allows for easy data entry, while its robust polycarbonate case protects it against any hazardous environment.
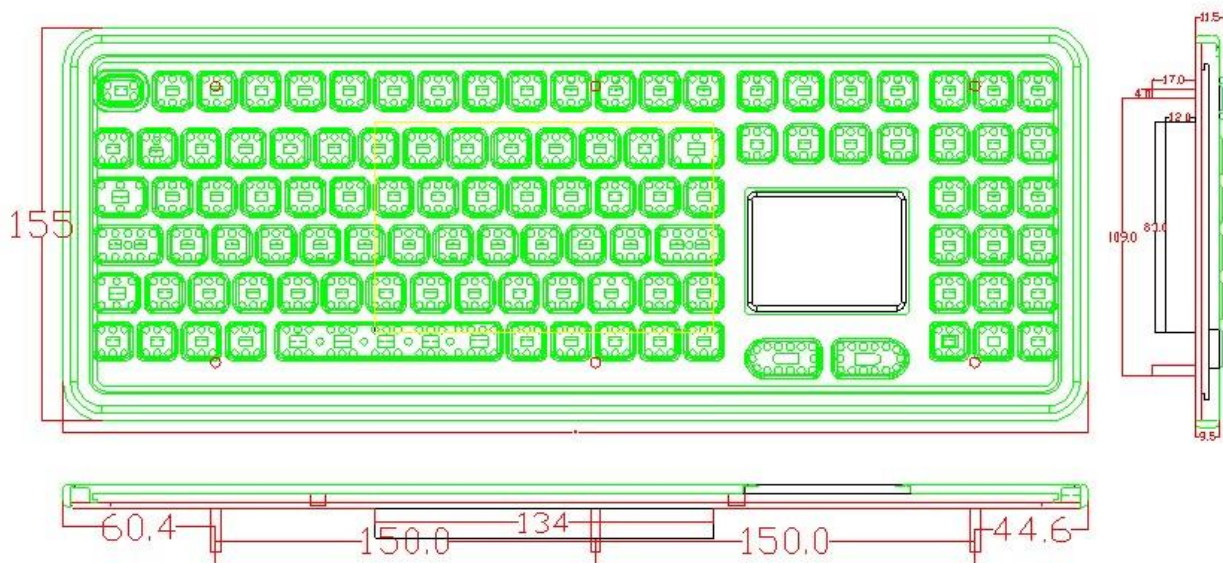

MEDICAL: lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;

MATERIAL HANDLING: mobile keyboard, data entry, assembly line etc

MILITARY: Army, Navy, Air force

INDUSTRIAL: Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses

- MEDICAL**:** lab, hospital, clinic, dental, such as carts, diagnostic equipments, operation rooms, dialysis centers etc;
- MATERIAL HANDLING**:** mobile keyboard, data entry, assembly line etc
- MILITARY**:** Army, Navy, Air force
- INDUSTRIAL**:** Industrial automation, pharmaceutical, oil and gas, food and beverage, clean or dirty manufacturing environments, warehouses
- OTHER INDUSTRIES

- **Number of Keys:** 108
- Clean key
  -Prevents data from being sent while the keyboard is wiped down, allowing user to clean at any interval with minimal downtime
  -User is notified of 'lock down mode' by brightly lit CLEAN KEY
- Enclosure: industrial silicone, Aluminum (rear side).
- **G.W.:** 1.20 kgs
- **Dimensions:** 399.0mm x 155.0mm x 20.0mm(L x W x H)

PRI-KYB-M62NKP-AC

Description: IP65 rated ruggedized industrial silicone rubber keyboard with 9-12 keys, carbon-on-gold key switch technology with stroke 1.50mmfor fast and accurate data input without any noise , with tactile feeling ,with durable coating & antimicrobial keyboard surface withstand to most chemicals and liquids under harsh environment, front panel mounting solution, adjustable industrial backlight optional.

APPLICATIONS:

This keypad provides full-size versatility in a rugged, compact design with the embeded convenience of an integrated numeric keypad. For working in low-light areas, it is also available with optional LED backlighting. Engineered for NEMA 4X protection from dust, water and corrosive liquids. This keyboard is ideal for use in environments ranging from manufacturing to material handling to medical settings. Its numeric pad allows for easy data entry.
